SUMMARY

Data Analyst with skills in data analysis, SQL querying, and dashboard development. Proficient in Python (Pandas, NumPy), Power BI, Tableau, Excel, and SQL with experience in data cleaning, KPI tracking, dashboard creation, and business intelligence. Strong analytical mindset with the ability to transform raw data into actionable business insights and support data-driven decision-making.

TECHNICAL SKILLS

- Programming & Data Tools:** Python (Pandas, NumPy), SQL, Excel, Power BI, Tableau
- Data Techniques:** Data Cleaning, EDA, Data Modelling, Data Validation
- Database Management:** MySQL, MariaDB, MongoDB
- Data Visualization & Reporting:** Dashboards, KPI Tracking, Data Storytelling
- Statistics & Analysis:** Hypothesis Testing, Correlation, Regression
- Tools:** MS Office, Google Sheets, Jupyter Notebook

PROFESSIONAL EXPERIENCE

NoviTech RD Pvt Ltd

Jan 2026 – Feb 2026

Data Analyst Trainee (Remote)

- Collected, cleaned, and analyzed 5,000+ data records using Python, SQL, and Excel.
- Built 5+ interactive dashboards in Power BI for project tracking, financial summaries, and performance monitoring.
- Created data validation and visualization scripts using Pandas, NumPy, and Matplotlib, improving report accuracy by 30%.
- Automated repetitive reporting processes, reducing turnaround time by 35%.
- Supported management in generating KPI reports and business insights for operational decision-making.

PROJECTS

Blinkit Business Sales Analysis (Excel + MySQL)

- Cleaned and analyzed 8,523+ retail records using Microsoft Excel and MySQL.
- Imported the dataset into MySQL and performed SQL queries to analyze sales, customer ratings, outlet performance, and product categories.
- Designed an interactive Excel dashboard using Pivot Tables, Pivot Charts, and Slicers to visualize business insights.
- Monitored key performance indicators (KPIs) including Total Sales (\$18.6M), Average Sales (\$2.2K), Total Items (8,523), and Average Rating (2.6).
- Analyzed sales trends by outlet size, outlet location, item type, fat content, and outlet establishment year to support data-driven decision-making.
- GitHub: github.com/sharmashreya80/blinkit-business-analysis

Retail Performance Tracker (Power BI + SQL)

- Built an interactive Power BI dashboard to monitor sales, tax, profit, quantity sold, and customer trends.
- Cleaned and transformed raw data using Power Query and SQL.
- Created dynamic KPIs, charts, and slicers for real-time business reporting.
- Implemented filters for product line, customer type, branch, city, and payment mode.
- Improved reporting efficiency and enabled data-driven business decisions.

Global Sales Analysis Dashboard (Tableau)

- Developed an interactive Tableau dashboard to analyze global sales, profit, tax, and order performance.
- Designed country-wise maps, yearly sales trends, and product-wise profit visualizations.
- Compared business performance across product categories including Cars, Trucks, Buses, and Planes.
- Used filters and calculated fields to enhance dashboard interactivity.

Sales Performance Dashboard (Microsoft Excel)

- Designed an interactive dashboard using Pivot Tables, Pivot Charts, and Slicers.
- Analyzed over 10,000 sales records to identify revenue, profit, and customer trends.
- Automated KPI reporting and business performance monitoring.
- Created visual reports to support strategic business decisions.

Data Cleaning and Exploratory Data Analysis (Python)

- Cleaned and preprocessed raw datasets using Python, Pandas, and NumPy.
- Handled missing values, duplicate records, and outliers to improve data quality.
- Performed Exploratory Data Analysis (EDA) using statistical summaries and visualizations.
- Identified trends, correlations, and business insights for decision-making.
- Generated clean datasets suitable for reporting and predictive analytics.

EDUCATION

School of Engineering, Babu Banarasi Das University, Lucknow Bachelor of Technology (B.Tech) in Computer Science Engineering Percentage – 76.89%	2026
---	-------------

Navals Academy, Gorakhpur (CBSE) Intermediate (Class XII) Percentage – 74.6%	2022
---	-------------

Navals Academy, Gorakhpur (CBSE) High School (Class X) Percentage – 83.83%	2020
---	-------------

CERTIFICATIONS

- Data Analyst Certification – NoviTech RD Pvt Ltd
- Machine Learning with Python – GrassTech (Learnovate)

SOFT SKILLS

- Analytical Thinking
- Data Interpretation
- Communication
- Problem Solving
- Collaboration
- Attention to Detail
